fortune

Step into the future. Where all the comforts and necessities of modern urban life are present within the periphery of the apartment complex. Presenting Eternity Fortune. Be it all the excellent amenities or wonderful facilities present within the project, the apartment displays a distinctive style of architecture with extensive lung space, backed by the highest standards of construction, design ethics and product quality.

Location: Coming up at Bidadi, Eternity Fortune is the premier landmark project in this fast developing township very close to Bangalore. In fact, if you are looking for some entertainment and pure fun for the family, look no further. The captivating Innovative Film City is nearby, and the project is even quite close to the proposed Software Parks developed by the Karnataka government. Your home would be only a short distance away from the happening places and all the conveniences of a pulsating city life.
