big on life.

The idea of coming up with Ruchi Lifescapes - Bhopal's biggest ever fully Integrated township came from a small insight, that - we like to dream our dreams big. That's because dreams don't have

boundary walls. We never limit them into inches or feet. They in fact, represent our truest emotions, our deepest desiresthings we really enjoy doing in life. ...

So what does big on life actually mean?

Does it mean - a big chocolate. A big holiday. A big party. A big SUV. A big deal. A big win.... Or is it all about a big house in a big township...

We believe, big afterall is not really about size. It is about living the moment. Having the space, the ambience that lets you do it. It is about many small things we haven't done for quite a while....It is about a lazy afternoon...a game of dabba-down with children....a hot cup of chai on a misty Monday morning... a walk by the stream.... it's about watching Golmaal the hundredth time and still not getting bored..... counting stars from the bedroom window.... reading a book... listening to Kishore da.....it is also about partying all night.....

Ruchi Lifescapes is a township that has actually been designed

keeping life in mind. The spaces we have created here, both

within and outside the units are special. For example, every

entrance opens into a patch of green. Every door, every

window has been liberally designed to let nature take over.

Every unit is a culmination of thoughtful design, meeting

its rightful match in world-class planning. Every villa, every

twin bungalow, every row house has been designed to have

its own distinct individuality, its own mood. Our architects

and planners have also worked specially hard not to let design

come into the way of open living spaces. What has really been

attempted here is a modern world-class township, that beautifully

blends in elegance, aesthetics and world-class amenities to let you

celebrate life in all its fullness. No wonder, we call it Lifescapes.

bhopal's biggest.

- ▶ 3,43,482 sq mtrs (85 Acres) of developed area
- ▶ 55,018 sq mtrs of open landscaped spaces
- ▶ A multi-level shopping mall and entertainment centre
- ▶ Two sprawling clubhouses
- ▶ A 3 km natural water stream running along the township
- ▶ Centrally located parks in each cluster
- ▶ 700 Row Houses, 172 Twin Bungalows, 63 Villas, over 500 Apartments

Could Bhopal's biggest ever township be any smaller? Definitely not. At Ruchi Lifescapes, we made sure that the township had all the space, all the amenities, all the frills that were necessary for a modern lifestyle. But what we also did, was to make sure that things had a tasteful balance. We made sure, that we did not cross the fine line between doing and over doing. We believe that is what makes Ruchi Lifescapes special. It is modern, yet very home-like. It is stylish, yet simple. It is lifestyle...yet very life-like.

the **benefits of living in a fully integrated township** are many.

Have you ever wondered why a fully integrated township has everything - Villas, Twin Bungalows, Row Houses, Apartments. Why does it have a school, a mall, a hospital and clubhouses within the township campus. Why does it have broad roads, well-lit streets, pavements and carefully manicured gardens. Why does it have a water management system, power back-up system, sewage treatment plant and a three-tier security system in place? Why is the entire township inter-connected?

Why does it have everything you need?

We believe, behind the glitz and glamour of such facilities are very basic human needs that are taken care of. Needs like convenience, assurance and safety. Convenience that everything is at a hand's distance. Everything is in order, in place. Assurance that the people around are good. That children are safe. Infact, what a fully integrated township like Ruchi Lifescapes gives you is that comforting assurance of being at a place where life can be lived big. And that is what makes it special.

The project is backed by one of central India's leading business group - Ruchi

Ruchi Lifescapes is Ruchi Group's first real estate project in its home state. The group has an experience of over two decades and is one of the largest FMCG corporations in India.

Ruchi Realty Holdings Private Limited

Ruchi Lifescapes is brought to you by Ruchi Realty Holdings Pvt. Limited, the Group's real estate arm. Utilizing its core strength, Ruchi Realty aims to infuse new life and real meaning into urban spaces and households. Bold and fresh ideas meet the original vision of the group to create brands that enhance life. The company has already launched a mega Condominium Project - Active Acres in Kolkata. Other upcoming projects include an IT Park in Kolkata, an integrated township in Indore, to name a few.

Active Acres

Manish Shahra

"The Ruchi Group has always been known to deliver value. With Ruchi Lifescapes we have further cemented this belief. We are confident that our projects continue to create benchmarks, manifest our vision of healthy and happy living and become facilitators of unrivalled experiences".

Bhopal's very first township to have **Foreign Direct Investment.**

The fact that a township has Foreign Direct Investment, makes few things very clear. Things like the scale of the project. The professionalism that comes with it. The people involved. Strict adherence to world-class standards. Adherence to timelines. And more importantly, the assurance of sound financial backing. All in all, what this assures you, is an experience that is nothing less than world-class.

FDI in Ruchi Lifescapes comes from SUN-Apollo - a private equity investor. The firm has been an active investor in Indian Real Estate sector for the past two years. They provide equity capital to reputable and capable developers throughout India and have invested in residential, commercial, retail, SEZ and hotel projects across India.

SUN-Apollo is backed by SUN Group, a leading business and investment group in India and US based Apollo Real Estate Advisors, one of the largest global real estate investors in the world. It has a multi-disciplinary team comprising of professionals with diverse background and experience in real estate investment, finance and development. SUN-Apollo brings to India its experience from established international markets including US, UK, Western and Eastern Europe.

Designed by HCP Design and Project Management Pvt. Ltd.

Choosing Mr. Hasmukh and Bimal Patel of HCP Designs for Ruchi Lifescapes was quite an easy decision - simply because they were the best people for the job. What HCP brings to the project is 40 years of comprehensive experience; experience of architectural design, construction management, urban design, urban planning and interior design. Their portfolio includes a wide range of projects from - educational / institutional buildings, townships, corporate houses, cinema theatres, residential complexes, recreational buildings to industrial facilities. HCP has many projects which are considered landmarks, some notable among them being the Entrepreneurship Development Institute, Ahmedabad (EDI), Indian Institute of Management, Ahmedabad (IIMA), Safal Township at Ahmedabad, Housing Project at Batanagar Kolkata, Cadila Health Care Research facility, Ahmedabad, Sabarmati Riverfront Development Project, Ahmedabad.

Their contribution to the field of Architecture can very well be seen in the awards they have received which include the Indian Institute of Architects Award (2002); AR+D Commendation Award (2001); World Architecture Award (2001); Indian Institute of Interior Designers Award (2003); 14th JIA Award for Interiors (2002); the Great Masters Award by J.K. Cement for Contribution to the Architectural Profession (2000); the Baburao Mhatre Gold Medal for Lifetime Achievement, from the Indian Institute of Architects to Hasmukh Patel (1998); and the prestigious Aga Khan Award for Architecture (1992).

Brijesh Bhatha
(HCP Design and Project Management Pvt. Ltd.)

The Principal Designer on Ruchi Lifescapes-

"The brief for Ruchi Lifescapes was very clear - to create "a place that would provide serenity besides having an enriching experience for the residents". The Master Plan integrates fine urban design principles to build a socially rich environment, and to create a distinctive identity. The architecture integrates aesthetics & robustness to achieve harmonious & soulful homes. It is my strong belief that 'Ruchi Lifescapes' will provide a backdrop for high quality living.

A location that has many things to appreciate.

Besides being Bhopal's biggest fully integrated township, Ruchi Lifescapes has another big advantage-its location. Situated off the Hoshangabad Highway, Ruchi Lifescapes is tucked away in a serene stretch of green. The township, has a

- ▶ 24 meter wide road and easy connectivity for public transport
- ▶ Approached by taking the 60'ft wide Jatkhedi Road, which branches out of NH-12
- ▶ 1.8 km from Hoshangabad Road (NH-12)and 9 km from city centre
- ▶ 15 km from the industrial township of Mandideep
- ▶ 20 km from Airport
- ▶ 7 km from Habibganj Railway Station

Incidentally, Hoshangabad Road is one of the fastest developing locations in & around Bhopal city. What makes this location all the more special is its noise-free, pollution-free environment that is doubly made special by a natural water stream flowing along the township. With presence of schools, colleges, malls, food-courts, commercial and residential projects close by, the location also holds the collective advantage of being at Bhopal's most sought after destinations. Which means you have all the positives of an appreciating investment in your favour.

Behind the big things, there are many small things that are important.

When you build a township as big as Ruchi Lifescapes, what comes along, is a big responsibility. The responsibility of doing things right. Of paying attention. Of taking care, that in the shimmer of big things, we don't miss out on the many small things. You would be surprised to know that we have a special team for this. A team that checks every brick, every tile, every fitting. They check that the work done is being done well. That the doors don't squeak, the taps don't leak. That the masonry work has been done to perfection, that the sliding windows function effortlessly... the list is endless... but what all this brings, is the satisfaction of owning a house that is well made. And at Ruchi Lifescapes you are assured of that.

A township that cares for nature, as much as it cares for you.

At Ruchi Lifescapes nature is a very important issue. That's because nature is important for you. The entire township has been designed to make nature an integral part of your lives. The wide open spaces, the pedestrian trails, the natural water stream, infact even the idea of having 3000 trees in the township comes from the thought that the township develops its own ecosystem. Its own lungs. To sustain a healthy ground water level, the township has an effective Rainwater Harvesting System with many water percolation wells throughout the township. A water recycling plant, a well managed sewage disposal system and a sewage treatment plant are some of the other initiatives taken towards maintaining that crucial balance with nature.

big on fun

Nature Park

The nature theme park located along the water stream specially created to provide quite contemplative spaces for meditation and Yoga

Peripheral Jogging Trail

A 3m wide and about 3 km long peripheral pedestrian trail along the natural water stream for all the space and time to jog, walk or just sit and relax
