Project by
GRC INFRA PVT LTD

This brochure is conceptual in nature and is by no means a legal offering. The promoters reserve the right to change, delete or add any specification or plan shown here in.

“The most precious thing in this world is trust. It can take years to earn and only a matter of seconds to lose, so it's important to keep trust at the forefront of everything you do. It can make a big difference in your life and leadership.

Start today with a concerted effort to cultivate, earn and build trust, and discover the difference it can make.”

Trust is built with consistency.
We at GRC have consistently built trust among
our customers from 15 years.

ABOUT US

“Happiness is not something
you postpone for the future,
it is something you design
for the present.”
- Jim Rohn

It all started in 1999 when they came together to incorporate GRC Group. During that time, the company worked with leading architects in creating some of the high end homes and villas in Bangalore. It also provided contractual services to luxury homes, commercial complexes and hospitals, establishing the roots that would support its growth in the years to come.

The firm then grew to become an independent developer and started its first independent, residential apartment complex called GR Vistas. The success of this project gave a huge fillip to the promoters and the successful completion of several other projects cemented the group's growing reputation.

The GRC group creates Healthy Homes, which are also inherently resource efficient. The driving idea was to create healthy living environments that would be sustainable, ecological friendly and economical. All residences built by the GRC Group are based on intelligent design and green architecture principles.

Currently the GRC group is engaged in the planning and development of multiple, large, residential projects in the city of Bangalore.
