

Specifications of Sobha Neopolis Phase 1 (Wing 14, 15, 16, 17, 18 and 19)

Sobha Limited takes great pride in delivering international quality standards to its customers. Please find enclosed specifications for **Sobha Neopolis Phase 1 (Wing 14, 15, 16, 17, 18 and 19)**, Bangalore

While the specifications reflect the high quality standards that Sobha Ltd. employs in the project, we would request our customers to note that many of the materials used in the project- including, but not limited to, marble, granite, wood, etc. are subject to variations in tone, grain, texture, colour and other aesthetic features, which are beyond our control. For example, in case of granite, which is pre-polished, when laid, may result in certain amount of unevenness, due to its inherent property. While we confirm that we will use similar quality materials available, we are unable to confirm/assure that the products used in the building will always match the samples shown with regard to these features.

We also request you to note that certain manufactured materials such as ceramic/rectified and vitrified tiles, anodized/powder coated aluminum, sanitary ware, etc., are subject to colour variations and this is mostly due to items being manufactured in different lots and due to the inherent manufacturing process (In case of vitrified tiles). The final product used in the building will therefore be subject to these colour variations, which again is beyond our purview.

Sobha Limited relies on manufacturers and suppliers for its raw materials – such as marble, granite, timber, tiles, aluminum, sanitary ware, etc. These are possibilities that the materials specified and shown in model apartment / samples may not be available at the time of construction. In such instances Sobha Limited reserves the right to replace unavailable material with suitable alternatives of the same standard, grade and specification. We request our valuable customers to note that any such changes made will not, in any way, be detrimental to the quality of the building.

Sobha Limited will attempt to minimize variations to specifications, however in case of any variation of the same we will not compromise in terms of the standard, grade and specification.
