2015年12月

• **1990s:** The first decade of the 21st century saw a significant increase in the number of people living in poverty, particularly in the developing world. This was largely due to the impact of the Asian financial crisis, which led to a sharp decline in economic growth in many Asian countries. Additionally, the global financial crisis of 2008-2009 led to a significant increase in unemployment and poverty in many developed countries.
