[illegible][illegible]

Figure 1 consists of five line graphs, labeled A through E, each representing a different condition. The x-axis for all graphs is 'AGE' with values 10, 12, 14, 16, and 18. The y-axis is 'PERCENT CORRECT' ranging from 0 to 100. Each graph contains five data series, one for each condition (A, B, C, D, E), represented by different symbols. In all conditions, performance generally increases with age. Condition A shows the highest overall performance, while Condition E shows the lowest. The 18-year-old group consistently performs best across all conditions.

Condition	Age 10	Age 12	Age 14	Age 16	Age 18
A	~85	~90	~95	~98	~100
B	~75	~80	~85	~90	~95
C	~65	~70	~75	~80	~85
D	~55	~60	~65	~70	~75
E	~45	~50	~55	~60	~65
