[illegible]

the most likely path taken by the group is to vote against the new policy. The group is most likely to vote against the new policy if the group is most likely to vote against the new policy.

Question	Answer	Mark	Total
1. A person is standing on a platform. A train is moving towards him. The person starts clapping his hands as the train approaches. What is the frequency of the sound heard by the person?	The frequency of the sound heard by the person is the same as the frequency of the clapping.	1	1
2. A person is standing on a platform. A train is moving towards him. The person starts clapping his hands as the train approaches. What is the frequency of the sound heard by the person?	The frequency of the sound heard by the person is the same as the frequency of the clapping.	1	2
3. A person is standing on a platform. A train is moving towards him. The person starts clapping his hands as the train approaches. What is the frequency of the sound heard by the person?	The frequency of the sound heard by the person is the same as the frequency of the clapping.	1	3
4. A person is standing on a platform. A train is moving towards him. The person starts clapping his hands as the train approaches. What is the frequency of the sound heard by the person?	The frequency of the sound heard by the person is the same as the frequency of the clapping.	1	4
5. A person is standing on a platform. A train is moving towards him. The person starts clapping his hands as the train approaches. What is the frequency of the sound heard by the person?	The frequency of the sound heard by the person is the same as the frequency of the clapping.	1	5

Chapter 10: The Cell

Section 10.1: The Cell

Section 10.1: The Cell

The cell is the basic unit of life. It is the smallest unit of an organism that can perform all the functions of life. The cell is made up of various organelles that work together to carry out the functions of the cell. The cell is the basic unit of structure and function in all living organisms. The cell is the smallest unit of an organism that can perform all the functions of life. The cell is made up of various organelles that work together to carry out the functions of the cell. The cell is the basic unit of structure and function in all living organisms.

Cell Type	Prokaryotic Cell	Eukaryotic Cell	Plant Cell	Animal Cell	Fungal Cell	Bacterial Cell	Viral Cell
Size	Small (1-5 μm)	Large (10-100 μm)	Large (10-100 μm)	Large (10-100 μm)	Large (10-100 μm)	Small (1-5 μm)	Small (1-5 μm)
Cell Wall	Present	Absent	Present	Absent	Present	Present	Absent
Nucleus	Absent	Present	Present	Present	Present	Absent	Absent
Organelles	None	Many (Mitochondria, Golgi, etc.)	Many (Chloroplasts, Mitochondria, Golgi, etc.)	Many (Mitochondria, Golgi, etc.)	Many (Mitochondria, Golgi, etc.)	None	None
Reproduction	Asexual	Sexual	Sexual	Sexual	Sexual	Asexual	Asexual
Energy Source	Chemical	Chemical	Chemical	Chemical	Chemical	Chemical	Chemical
