QUESTIONS: (1) Do different categories of people have different levels of concern about the environment? (2) Do different categories of people have different levels of concern about the environment?

2) **Abweichung** $\Delta E = 57$ eV (für $\lambda = 0.214$ nm) ist größer, weil auch die ΔE der $n=2$ Zustände kleiner ist, weil die ΔE der $n=1$ Zustände größer ist. (für $\lambda = 0.214$ nm) ist größer, weil auch die ΔE der $n=2$ Zustände kleiner ist, weil die ΔE der $n=1$ Zustände größer ist.

(a) The first order of business was to establish a working relationship with the local community. This was achieved through a series of meetings with local officials and community leaders. The goal was to ensure that the project was seen as a benefit to the community and not just a corporate exercise.
