 AMERICAN SOCIETY OF MECHANICAL ENGINEERS
 3501 Market Street, Philadelphia, Pennsylvania 19104
 ASME Technical Paper No. 98-1/401

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a modified training program. The subjects were then tested on a series of tasks, and the results were compared between the two groups.

 The person in the photograph is looking directly at the camera. The image is grainy and has a high-contrast, almost stencil-like quality. The person's features are partially hidden by a dark, irregular shape on the right side of the frame.
