Therefore, all the facilities granted by a bank to a borrower and investment in all the securities issued by the borrower will have to be treated as NPA/NPI and not the particular facility/investment or part thereof which has become irregular.

Example Description - NPA Classification on based on borrower wise and not facility wise.

Example: If any Facility of customer is classified as NPA upon running day-end process as on date, all the facility of the customer need to be classified NPA upon same day. It is further explained as below mention table:
