

CONTEMPORARY LIVING

Purple

The entrance experience is a detrimental key in establishing the tone of the living space. PURPLE WOODS is designed with lush greenery and water bodies to engage the driving experience of the residents or visitors. The entrance incorporates all parameters of safety and security to ensure a secure living environment to the community.

The entrance permeates into wide roads that lead to ramps of basement car-parks. The design ensures that all residents will engage with ease the fluidity of design and embrace the functionality of the spaces. Factors such as visitor's car park, accessibility, vehicular movement, transitional merger of zones and pedestrian safety have been effectively collaborated into the design of the project.
