

This is a detailed architectural floor plan of the second floor of the FBI Building. The plan shows a symmetrical layout with a central corridor system. On the left side, there are several large offices, each containing multiple desks and chairs. These offices are labeled with names and titles, such as "Mr. J. Edgar Hoover, Director" and "Mr. C. L. Bell, Deputy Director". The right side of the plan also features large offices, including "Mr. E. A. Tamm, Chairman" and "Mr. J. C. Tamm, Secretary". The central corridor is wide and contains several elevators and stairwells. The plan also shows various smaller rooms, including a "Reception Room", "Waiting Room", and "Conference Room". The overall design is functional and organized, reflecting the importance of the building as a federal government structure.
