10) I/We are aware whenever natural Indian/Imported marble is used by Roma Builders Pvt. Ltd., there are going to be imperfections (cracked texture/ shade variations/ design variations) which someone may view as ' defect' but which are a natural occurrence in the type of the marble. These imperfections are inherent in natural marble and have to be viewed as their natural beauty, as perfect flooring of factory made products like ceramic tiles, mosaic tiles of agglomerated marble etc. does not give the same warmth of feeling. Italian Marble when sourced at the mines occurs in a cracked texture, which is sliced mechanically. The cracks are filled with resin fillers at the sources itself. These marble slabs are then backed with PVC mesh to avoid further development of cracks during long distance travel and handing. Though utmost care is taken, sometimes, these cracks open during cutting and fixing. Such cracks are filled again with the best imported resins as used internationally. The difference in shade/design depends on the natural occurrence in different types of marble. Even though, we have very huge requirements, we try to accommodate one lot in one confined area/room yet, the same may not match with other area/room.

We have observed that after taking possession of the flats, owners are getting a lot of civil and other works done in their flats to suit their personal needs.

While this need of the flat owners is appreciated, all must realize that due to such civil, plumbing and other works done, especially in area like bathrooms, toilets and kitchens etc, the waterproofing originally done, will be disturbed. The guarantee given by the specialist's agency shall naturally become null and void, with the result the flats below shall suffer.

Flat Owners are therefore, requested to utilize the services of a Specialist Agency for waterproofing who will stand guarantee for any leakages. The flat owner would be responsible to bear the entire cost of any rectification in case of leakage.

Kindly acknowledge.

**Sub: Quality of Natural Marbles provided in our Projects.**

Dear Sir, Madam,

This is to draw attention of our flat purchasers, to the quality of marble used in our projects. Whenever natural Indian/ Imported Marble is used by us, there are going to be imperfections which someone may view as 'defects'. These imperfections are inherent in natural marble and have to be viewed as their natural beauty, as perfect flooring does not give the same warmth of feeling.

The difference in shade/ design depends on the natural occurrence in different type of marbles and even though we have very huge requirements, we try to accommodate one lot in one confined area / room, which may not match with other area/ room.

Italian Marble when sourced at the mines occurs in a cracked texture, which is sliced mechanically. The cracks are filled with resin fillers at the source itself. These marble slabs are then backed with PVC mesh to avoid further development of cracks open during cutting and fixing. Such cracks are filled again with the best imported resins as used internationally.

It is therefore, requested that if the purchasers wish to have a perfect floor finish, they shall go for factory made products like ceramic tiles, mosaic tiles or agglomerated marble, as per their choice.

Thanking you,  
Yours faithfully,

Dear Premises Owner / Occupant,

For your safety and good performance of your building, we wish you to read and confirm that you have accepted the following before taking possession of the premises.

**1] Plumbing Ducts:**

Please note that we do not give any permission for closure of ducts. There is no objection from us for use of the ducts for e.g. for drying clothes, locating condenser units of split AC's, storing

household items like mops, buckets etc. However we are categorical on the point that no one can make changes which cause disruption of the rain water flow or closure of the building pipes preventing maintenance.

The whole purpose of the service slab is to ensure ease of maintenance of the plumbing pipes particularly in high rise buildings. Doing some painting work or tiling work within can be accepted subject to the following of guidelines and without disturbing the external elevation.

However if someone is going to close the outlet for the rain water which comes through the external grill or is going to block the building plumbing pipes to make the pipes inaccessible and maintenance impossible, the question of such approvals does not arise and the flat owner must be directed forthwith to remove any such works carried out by him / herself.

## **2] Internal changes in Toilet Plumbing:**

To conserve water as per the directions of the Municipal Corporation, we have made arrangements to provide treated recycled water or borewell water as and when available for the plumbing lines which provide flushing water to the building. These lines are connected to the WC Tanks and Urinals.

Premises owners are hereby cautioned that when their plumbers make changes in the toilets of their premises, they should not connect the flushing line to any other outlet except the WC Tank or Urinal. The other outlets where the flushing water line should not be connected include the complete kitchen, wash basin, shower, washing machine and WC health faucet or jet spray.

The Developers and the Co-operative Housing Society will not be responsible for any health hazard if such changes are made.

## **3 ]IMPORTANT NOTE :**

All clients are hereby informed that whenever the washing machine is being installed, flexible outlet of same shall be connected to the outlet provided in wall through an elbow & pipe-piece only. (Pl refer attached sketch behind). This is a time-tested solution/method and will avoid all possible leakages if connected properly. Enclosed sketch is indicative and outlet can be concealed or exposed depending on site condition.

Installation must be done as per manufacturers' instructions and through professional / qualified plumbers only, to avoid any further maintenance problems in future.

You are requested to confirm that you have noted the above contents with your signature on the copy of this letter.
